Procurement Bulletin

June 20, 2005

#05-02

California County Superintendents Educational Services Association

1.1 Subject

Statewide Piggybackable Contract For Office Supplies

1.2 Summary

The Los Angeles County Office of Education (LACOE) has awarded a competitively bid contract for office supplies to Corporate Express. Pricing is highly aggressive compared to other office supply contracts in California, beating benchmarks by at least 6 percent and more for like items. Used as a whole, this contract will reduce total cost of ownership for districts and county offices of education who make it the contract of choice for office supplies. Nearly 700 of the most commonly used office supplies for schools are listed and are clearly bid protected. They should constitute nearly 80 percent of what any district or county office of education would order in the office supply category.

All California school districts and county offices of education are eligible to use the contract and are specifically identified as potential users in the bid documents.

1.3 Commodity Overview

Growth in the core office supply business remains relatively flat in North America, so the major players in office supplies are using new techniques to increase profits, including private label and house branding of many supplies and the recycling of ink and toner cartridges. Emphasis on marketing is now on "supplies for the office" instead of "office supplies." As a result, the number of products offered by the major Big Four office supply companies is expanding with forays into janitorial supplies, paper, technology and custom imprinting. Paper continues to be the item with the greatest price volatility.

All prices in this bid are capped for the life of the contract. This bid continues to focus on core office supplies, with slight overlaps on ink, toner, paper and a few instructional supplies, such as construction paper. EdBuy and LACOE have a separate contract with Southwest School Supply for instructional items such as construction paper.

The Big Four: Corporate Express, Staples, Office Depot, and Boise Cascade/Office Max all have the capability to serve schools in California, while tier-two suppliers nip at their heels with lower overhead, but with more limited capabilities. Studies by consultants such as Copernicus Marketing continue to reveal that consumers see little product differentiation among office supply brands, so that price becomes a leading determinate of their buying decision. Recent news in the office products industry has centered on the announcement by Boise/Office Max that it overstated its earnings for 2004 and that some employees had falsified documents to obtain

Procurement Bulletin 05-02

promotional payments from an undisclosed vendor in 2003 and 2004. An investigation by the Security and Exchange Commission has been launched.

1.4 About the Awarded Vendor

Corporate Express, Inc. is one of the world's largest business-to-business suppliers of essential office and computer products and services with 2004 sales of approximately \$4.5 billion in North America.

Corporate Express has more than 120 sales representatives in California. School districts or COEs using this contract can work with Corporate Express to design their own level of sales support. For example, some districts want weekly district office visits. Some want site-level training. Others simply want regular phone support.

In addition to the support of sales reps, Corporate Express has more than 900 Customer Care representatives throughout North America.

Customer Care is provided locally at each distribution center to manage the schools' daily service requirements. Corporate Express positions this as a differentiated service, saying many of its competitors have converted to impersonal regional call centers. That means Corporate Express customer support personnel are working in the same distribution center that services a school district's location. The goal is to provide a much more responsive and accountable customer service program to school districts.

The Corporate Express Customer Care Team is available to California schools and county offices of education via a dedicated toll free number and e-mail from 8:00 AM to 5:00 PM, Pacific Time Monday through Friday. This team is fully trained in product detail/distribution and ordering. The contact information is:

Toll-Free Phone: 888-CE-TODAY or 888-238-6329
E-Mail: CorporateExpress.CustomerCare550N@cexp.com

A team member can assist school district buyers in the following areas:

- Placing orders
- Verifying pricing
- Checking order and delivery status
- Confirming inventory levels
- Cross-referencing stock numbers
- Tracking backorders
- Expediting rush orders
- Processing returns and credits
- Handling special service requirements
- Sourcing unusual or hard to get items

Procurement Bulletin 05-02

The LACOE contract has the support of high-level Corporate Express executives who have pledged training and support of sales reps on the implementation of this contract. If sales support or customer service support is ever weak or less than expected, send a report to both Corporate Express executives and CCSESA staff at the following addresses:

CCSESA/EdBuy: tedwitt@epylon.com

Corporate Express: chris.spoerl@cexp.com

1.5 Equivalent Products

Several private label products were accepted in this bid. The bid evaluation process included a physical review of samples to ensure equivalency to LACOE specifications. File jackets were stretched and torn. Marker pens were opened and used. Toner cartridges were put in laser jet printers. Pencil sharpeners actually sharpened pencils. Not all substitutions offered were accepted.

One of the unique aspects of the EdBuy program is that it accepts comments on the quality of any product under contract, and the information is used to gauge vendor compliance with the contract and to hone future bid specifications.

To comment on the quality of any item under contract, email tedwitt@epylon.com.

1.6 Key Terms and Conditions

- Contract prices are capped for the full term of the contract.
- Prices are for just-in-time delivery, next day in most areas.
- Awarded vendor can be solicited for voluntary discounts or volume discounts, but bid price may never be exceeded.
- No shipping charges for standard orders.
- Vendor will deliver anywhere in California.
- Only orders faxed to 800-606-6148 can obtain the contract prices.

1.7 Benchmark Pricing

Price benchmarking is an important tool in assessing the value of the LACOE contract to other agencies across the state. In addition, benchmarking provides information helpful to districts that need to have a "finding" associated with their use of a piggybackable contract.

In bidding for the LACOE contract, Corporate Express beat its nearest competition in pricing by 7.6 percent for all bid items taken as a whole. Here

Procurement Bulletin 05-02

is how the LACOE contract compared to like items in some other popular contracts in California.

Other Contracts	Percent Higher Than LACOE for Like Items
Contra Costa	6-8%
El Dorado 2004	7-9%
US Communities	8-12%
San Diego Unified/PSS	6-8%

1.8 Total Cost of Ownership

Districts should consider total cost of ownership in determining the value of contract pricing. Factors which add to total cost of ownership when using other contracts include costs of:

- Newspaper advertising
- Bidding and quoting
- Returns
- Warehousing and Storage
- Delivery of Supplies to School Sites
- Shipping
- Accounting

1.9 Bidding Requirement

Office Supplies usually constitute a major purchase of all school districts and requires the use of a formal bid or piggybackable contract when purchases exceed \$62,400 in one year. This bid meets that obligation.

1.10 Shopping and Ordering Information

All current LACOE prices are listed in the on-line catalog at www.edbuy.org as of June 20, 2005.

Buyers may also link to the Corporate Express web site and see contract prices by connecting through www.edbuy.org.

Buyers may use the EdBuy web site to make a list of desired items, save the list for future reference, print out the list, and, finally, attach the list to their own purchase orders.

All paper purchase orders MUST BE FAXED to the EdBuy clearinghouse at 800-606-6148 in order to get the contract price and to ensure bid protection.

Purchase Orders to Corporate Express can be made out to Corporate Express,

Procurement Bulletin 05-02

16501 Trojan Way, La Mirada, CA 90638, but must be faxed to 800-606-6148.

Buyers who want to order directly from the Corporate Express website without using any paper – and avoiding the fax process -- can do so by using their district's account on www.epylon.com.

1.11 Disclaimer Regarding Off-LACOE Contract Items

Each of the 700 items awarded under contract through LACOE is clearly identified as a bid protected item on the EdBuy web site. These items should constitute about 80 percent of what any school district would need for basic office supplies. For other needs apart from the 700 items that are clearly protected by the LACOE bid, EdBuy makes available other products in the Corporate Express catalog that have been bid by the County of Ventura. These off-LACOE contract items will be discounted at 64 percent off the list price in the Corporate Express Office Products Essentials catalog along with a 51 percent discount off the list price in the Corporate Express Sourcebook catalog. These other items are displayed in the Corporate Express website linked to EdBuy's site.

Users should make their own determination of whether the Ventura County bid meets their local district's standards for bid-protection.

2.0 What is EdBuy?

EdBuy is a cooperative purchasing program operated by the California County Superintendents Educational Services Association (CCSESA) based in Sacramento. In EdBuy's initial offering, twenty county offices of education signed up to support the EdBuy/LACOE bids, participate in the EdBuy program and to use EdBuy contracts. Any county office of education or district wishing to participate and support future bids can sign a non-binding letter of participation which can be downloaded from www.edbuy.org or ask for a letter from CCSESA or the Epylon Corporation. However, any county office of education or district in the state can purchase off the contracts regardless whether or not they have signed a participation letter. EdBuy works with a lead county office of education or school district to go to bid on behalf of both county offices of education and districts. The program uses the industry's proven practices to obtain best value pricing on a wide range of commodities. In addition, EdBuy provides several value-added services by asking users to fax their purchase orders (POs) to its clearinghouse. For example, EdBuy checks for errors on the PO, and records line item data so it can give users periodic purchasing reports. Finally, EdBuy electronically forwards the PO to the proper vendor, while monitoring the vendor's compliance with the contract.

Procurement Bulletin 05-02

2.1 Is there a cost to participate?

There is no cost to participate or use the contracts. The contracts are a service of your local participating county office of education, working cooperatively with other county offices of education. Unlike CMAS, which now charges users 2.57 percent of the value of each purchase order, EdBuy contracts are free to use.

2.2 Bid Documentation

Bid documentation (including proof of advertisement and terms and conditions) can be found by clicking on the hyperlink corresponding to any line item brought up by the search functionality of EdBuy.org. In addition, a hyperlink to documentation is located alongside the contract name in the contracts listing section of www.edbuy.org.

3.1 Contract pricing

The following attachment, a total of 94 pages, contains LACOE's current Corporate Express bid pricing good through April 14, 2006.

LACOE Standard Supply List for Office Supplies

Vendor: Corporate Express

Product Name	3-Ring Binder, Economy, 1" Cap, Letter, Gray
Current Price	\$0.98
